

REPUBLIC OF BULGARIA
MINISTER OF EDUCATION AND SCIENCE

Dear Sir/Madam,

In respect to the spread of the coronavirus COVID-19 in Italy, the Ministry of Foreign Affairs recommends that Bulgarian citizens to travel to the country only in extreme cases.

The risk index has been increased to the highest level 5 for travelling to China, followed by a warning to cancel all travels to and leave the country immediately.

To guarantee the health and safety of the employees and students in your institution, I believe that all travels, including those part of mobility programs, to the above mentioned countries and others affected by the virus, have to be cancelled.

I'm requesting for your cooperation in making the content of this letter available to all employees and students in your institution and to any affiliates.

Signed by Krasimir Valchev
Minister of Education and Science
